BELOVED CITIZEN LAID TO REST

A Legion Of Friends Unite In Paying High Tribute To Late Miss M. M. Woolverton Who Passed Away Suddenly On Sunday Last

A truly beloved and gracious citizen whose beneficent efforts on behalf of her fellows and in every worth-while endeavor will constitute a lasting monument to her memory, suddenly passed from this life on Sunday evening last in the death of Miss Mary Mahop (Nina) Woolverton who succumbed to a heart attack at her home on Mountain Street.

Funeral On Wednesday

The genuine affection in which she was held was strikingly attested by widespread expressions of regret and by the throngs of citizens of the town and district who gathered in St. Andrew's Anglican Church, Grimsby, on Wednesday afternoon to pay a last tribute to one who commanded their respect and affection in a signal degree and whose loss will be profoundly felt in the community and beyond.

The casket which rested in the chancel of the edifice was draped with a purple pall sent by the Dominion Diocesan Board of the Women's Auxiliary, Toronto, while beside the casket lay a beautiful cross of yellow roses and chrysanthemums from the Niagara Diocesan, W. A.

The wealth of beautiful flowers sent by friends constituted an affectionate tribute to an eminently worthy citizen.

In a feeling tribute to the late Miss Woolverton, Rev. J. A. Ballard, the rector, made reference to the unique regard in which she was held and the characteristic devotion with which she fulfilled the tasks she undertook in church and community. Many, he said, had been cheered by her sympathetic understanding and numerous hearts have been saddened by her passing. Rev. C. H. Boulden, headmaster of Lake Lodge School, assisted in the service.

Interment was made in the adjoining churchyard.

The pall bearers who were cousins of the late Miss Woolverton were: Leonard Nelson, Grimsby, Robert Nelson, Thorold, Harold Woolverton, Charles Manson, Grimsby and Harry Groat, Port Colborne.

Sketch Of Her Life

Miss Woolverton who was a daughter of the late Theodor Woolverton, medical director of the United States navy, was born in Grimsby 62 years ago where she had resided all her life.

Widely travelled both on this continent and in Europe, Miss Woolverton was keenly interested in music, art and literature, possessing a gifted and cultivated mind.

Miss Woolverton was also widely known through her activities in connection with the Anglican Church. She was for many years prominently associated with the Niagara Diocesan Women's Auxiliary having been formerly secretary-treasurer of the education department where her extensive knowledge and writing ability was of use in preparing missionary study outlines. She was a life member of the Women's Auxiliary, but relinquished this post and its arduous duties on account of ill health a few years ago, continuing, however, as a member of the education department committee. She was also a devoted member of the Grimsby W. A.

Miss Woolverton was an enthusiastic member of the Imperial Order, Daughters of the Empire. She named the Lincoln Loyalist Chapter, I.O.G.E. and was its first honorary regent. She had always been a member of the literary committee of the chapter.

Here was a winning and lovable personality. She was broad, tolerant.

Card of Thanks

We desire to gratefully acknowledge the kind sympathy of friends and neighbors in our recent bereavement and to express our thanks for the many beautiful floral tributes received.

Mrs. A. C. Graham and daughter, Mrs. Waite.

CARD OF THANKS

Mrs. Robert H. Moxley and Miss Isabel Moxley desire to express their sincere gratitude to neighbors on Robinson St. South and their many friends for their kind expressions of sympathy in their recent bereavement and to acknowledge the beautiful floral tributes received.

The councils of both the town of Grimsby and township of North Grimsby will hold their final meetings of the year on Thursday next, December 15th.

Survey Shows No. 20 Highway More Heavily Travelled Than No. 8

A survey of traffic made last week on King's Highway No. 8 and the newly opened No. 20 King's Highway, showed the new road is more heavily travelled than the old highway through Grimsby. Refreshment stand operators on No. 8 Highway say business last summer was slim, and business men are wondering what the situation will be next year when tourists use the new road.

CADET CORPS WAS INSPECTED

Officers of Military District Visit Lake Lodge School—Highly Complimented By Inspecting Party

An inspection of the Naval Cadet Corps of Lake Lodge School was held on the school grounds on Tuesday afternoon. The members of the inspecting party included high officers of Military District No. 2, and the performance of the Cadets elicited many favorable comments.

In the absence of General Ashton, O. C. of the district who was not well enough to attend, Col. Hertzberg, was the inspecting officer, being accompanied by Col. Claude Hill, Col. McCrimmon and Col. Armand Smith. After the march past the members of the cadet Corps were put through their exercises in physical training and in small arms drill by Lieutenant Haworth R. N. of the Lake Lodge staff, the efficiency and smart appearance of the cadets making a very favorable impression. Following the inspection Col. Hertzberg expressed his pleasure with the turnout particularly with the physical training exercises.

The inspecting party and others present were afterwards entertained at the school by Mrs. Boulden and Mrs. Graves.

Late Captain Moxley Buried With Military And Masonic Honors

Citizens in large numbers gathered at the home of the late Captain Robert H. Moxley of the 98th Battalion, C. E. F., on Saturday afternoon when the funeral took place.

In the gathering were many members of the West Lincoln Branch, Canadian Legion and of the Masonic Order who attended in a body, burial taking place with military and masonic honors.

Rev. E. A. Earchman, pastor of Trinity United Church, officiated at the services at the home and grave.

The firing party and buglers were furnished by B. Company of the L. and W. Regiment. Honorary pall bearers were all officers of the 98th Overseas battalion. The active pall bearers were sergeants of the L. and W. regiment from Niagara Falls.

W. G. Cowan, worshipful master of Union Lodge, No. 7 conducted the

THE LATE CAPTAIN R. H. MOXLEY

Masonic service at the grave, being assisted by Wm. Bro. David Allen. Interment was made in the Soldiers' plot in Queen's Lawn Cemetery.

Among those in attendance were Mr. Fred Moxley, Mrs. A. S. Duncan and Mrs. G. M. Godden, of Kingston, brother and sisters of the late Mr. Moxley.

MAYOR ANNOUNCES HIS RETIREMENT

Definitely Intimates He Will Not Be Candidate For Further Municipal Honors—Has Given Efficient And Devoted Service

Mr. A. G. Boulter, who has filled the position of Mayor of the town for the last two years and who has been a member of the council for the past four years intimated, when interviewed by The Independent, that it was his intention to retire from the Municipal Arena this year.

"In withdrawing from all municipal honors at the end of the year I wish to thank the people of Grimsby for their splendid support and the confidence they have placed in me the last four years," said Mayor Boulter. "I also desire to thank my associates on the town council during my occupancy of the Mayor's chair for the much appreciated support they have given me and the respect they have shown me while an occupant of the office, as well as to express my appreciation of the support given by members of the Water Commission, the Fire and Police Department, the Board of Health and the Press, all having co-operated with the council in their efforts to promote the interests of the town of Grimsby. Every department of the public service has

MAYOR A. G. BOULTER

worked harmoniously together for the betterment of the town.

"During the period in which I have been Mayor of the town, following the completion of the sewerage system, I strongly opposed placing any further debt on the municipal treasury. The council also strongly supported action looking towards the replacing of an unprofitable tenant in the Arena and the disposing of it to the Niagara Packers Limited which has resulted in the employment of upwards of one hundred hands during the fruit season with resulting benefit to the town and community. The arena now will no doubt become a great centre for a fruit market and a place which will doubtless employ an increased number of hands, both men and women, in the future.

"The past two years also saw the completion of the west end block of sewers.

"Strong support was given by the Reeve and council in co-operating with the Port Dalhousie council in securing the county road rebate in which we were successful, resulting in the payment to the town of Grimsby of a substantial amount which had been due since 1925. The funds available enabled the council to pave Depot Street which undertaking was carried through last year.

"Our books have also been cleared of a lot of unpaid taxes by selling lots on which taxes were long overdue, putting the town in a better position in this respect also."

Mayor Boulter, prior to becoming a member of the Grimsby town council, had had previous municipal experience in South Grimsby township where he served on the council for nine years, coming to Grimsby in the fall of 1921. Four years ago he was elected a

Card of Thanks

We desire to express our sincere appreciation of sympathy and kindness of neighbors and friends in our recent bereavement and to thank those who kindly loaned cars on the occasion of the funeral.

The Family of the late Mrs. Kitchen.

COUNCILLORS LIKELY TO STAND

New Member Needed With Retirement of Mayor—Three Mentioned For Reeveship

With the approach of the date of the annual nominations of the town of Grimsby which will be held on Monday, December 26th, much interest is being manifested in the probable personnel of the incoming council.

The announced retirement of Mayor Boulter will mean the addition of at least one new member to the council, it being likely that all the other members of this year's council will stand for re-election.

Reeve Wilkins who has occupied that office for the past three years, previous to which he held the position of deputy reeve for a year and councillor for two years, is the logical successor to Mayor Boulter. He has announced his retirement from the reeveship and his friends hope to prevail upon him to accept the nomination for the Mayoralty.

With the elevation of Reeve Wilkins this will leave a vacancy in the reeveship and three names have been prominently mentioned for the office, Councillors, W. Lothian, R. H. Lewis and H. G. Mogg. None of these gentlemen has announced his candidature for the reeveship. It is understood, however, that they will again be in the field for council.

Councillors A. B. Bourne and Watson McPherson are also willing to serve the town in the council if it is the desire of the electors that they do so. Councillor Merritt has not yet intimated his intentions.

The term of Ex-Mayor Hewson on the water commission expires this year. He intimated to the Independent his willingness to continue to serve on that body of which he is the chairman. His qualifications and fitness for the position are generally acknowledged, he having given most efficient and devoted service to the town as a member of the commission. He has acquired an intimate knowledge of the system which make him an invaluable member of that body.

His fellow citizens will be glad to learn that he is again willing to serve on that body.

The members of the Board of Education whose terms of office expire this year are: Dr. Clark, Wallace Bromley and R. T. Theal. The term is a two year one.

DOMINION CAFE WAS ROBBED

Stock Valued at \$140 Taken—Also Cash in Register—Police Investigating

Stock valued at \$140 and \$5.00 in small change was stolen from the Dominion Cafe, Main Street, Grimsby, sometime after 2.30 o'clock on Saturday morning last following the closing of the restaurant for the night. The stock taken consisted of cigars and cigarettes, and some tobacco besides the small change found in the cash register. Two table cloths were also taken.

Entrance was gained by the burglars through the rear of the store, holes having been bored with a brace and bit in both storm and inner doors to unlock them. No noise was heard by the proprietor who sleeps upstairs.

The robbers are thought to be members of a gang which has been operating at Freeman and Oakville, states Chief Demill. Local and provincial police are investigating the theft.

Appreciative Audience Heard English Comedy A Clever Performance

An appreciative audience was kept in high good humor throughout the entire performance on Friday evening in Trinity Hall when the English Comedy "Chintz Cottage" was given by the Windermere Dramatic Club of Toronto, under the auspices of the Grimsby Horticultural Society.

The play was full of action and amusing surprises and the players kept the audience in constant merriment as they cleverly unfolded the plot.

Miss Flora Allen sang two pleasing numbers during the intermissions between acts. Miss Maile Cullingford acting as accompanist, the latter also very acceptably playing a number of piano selections.

WILL NOT STAND FOR REEVESHIP

P. E. Wilkins To Relinquish Position—Being Urged to Stand For Mayor—An Able And Zealous Representative

Reeve P. E. Wilkins, queried by The Independent as to his intentions in the municipal field where he has served the town of Grimsby since 1926, said he was retiring from the reeveship which he has held for the past three years but added that he had not as yet come to a decision as to whether he would be a candidate for the office of Mayor. In view of the announced retirement of Mayor Boulter, he, as the holder of the next highest office in the gift of the citizens, is being urged by his friends to stand for the position.

Mr. Wilkins, referring to his association with the various councils while in office, said: "I have served under Mayor Boulter and ex-Mayor Hewson and have nothing but the best to say of both these occupants of that high office, as well as of the councillors with whom I have been associated. They have given me every support in my efforts on behalf of the community both in the town council and the county council and it has been a pleasure to work with them. The councils of the past few years, under the guidance

REEVE P. E. WILKINS

of Mayor Boulter and Ex-Mayor Hewson have accomplished worth-while things for Grimsby.

"It was while I was chairman of the Cemetery Committee in 1927 that the Perpetual Care Plan in connection with Queen's Lawn cemetery was inaugurated and carried through and to-day we have a cemetery in which we can well take pride. Under the new system we have accumulated a reserve fund of between \$4,000 and \$5,000, the funds from the sale of lots being placed in a special account and the interest only is utilized for the upkeep of the property. Previously the outlay was taken care of through the general tax levy. I am pleased to say that under the new plan the cemetery is now practically self-sustaining.

"Other undertakings which have been carried through have been the clearing of all the streets of the town rather than a part of them, the sale this year of the arena to Niagara Packers Limited, the acquisition of which has enabled that promising industry to greatly enlarge and extend its operations to the decided advantage of the town and fruit growers in the district, and the paving of Depot St. made possible through the securing of the county road rebate, this paved roadway which connects with the highway system, being of particular benefit to fruit growers of the community who have occasion to use this much travelled road. The paving of the road has also effected a saving of from \$500 to \$700 in upkeep which previously had to be expended for repairs.

"During my term of office I, as reeve, was closely associated with the efforts made to secure the rescinding of the Hospital by-law which had been in effect in the county under which the town was obliged to pay a large proportion of hospital expenses in connection with indigent patients. Under the present plan the county

Card of Thanks

Mr. and Mrs. James M. Wentworth and family wish to thank their many friends and neighbors for their kind expressions of sympathy extended to them and for beautiful floral tributes, also those who so kindly loaned their cars, in their recent and bereavement.

Securing Figures On Grape Industry

T. J. Mahony, M.L.A., stated this week that he was securing information in regard to what extent wineries had paid growers less than the \$40 per ton for their grape crop as had been alleged, that being the price agreed upon between the wineries, liquor control board and growers.

Mr. Mahony said many wineries he knew had promptly paid the agreed price, but it had been reported to him that others had not done so and when he had secured the necessary facts he intended to take the matter up with the government in Toronto.

It is understood that Niagara peninsula grape growers' association intend to hold meetings of all groups in the peninsula immediately for the securing affidavits from those members who sold this year's crops to wineries at prices lower than \$40 per ton. When these are secured it is stated that some form of action against those wineries which did not pay the agreed upon price will be taken.

Oddfellows Dance Was Big Success

A dance held under the auspices of the local lodge of Oddfellows Wednesday evening turned out to be a real success. The dance orchestra under the able leadership of Mr. Nelson Jacobs gave the dancers an enjoyable programme. So well were they received by over fifty couples that the committee was requested by the dancers to have the same orchestra back here at an early date. The committee decided to do so and announced another dance would be held in two weeks time namely Wednesday, Dec. 21st. Floor management was in the capable hands of Mr. Southward, who so kindly assisted the committee. At no time did he have any difficulty in getting the couples on the floor.

Half way through the program a delightful lunch was served and every one was well taken care of at the tables.

Grimsby has long looked to the Oddfellows to give them a measure of entertainment and last night's dance was no exception.

The committee feel sure that by doing so they will have the whole-hearted support of the residents of Grimsby and surrounding district.

It is also the intention of the Oddfellows to hold their annual New Year dance and to have a favorite orchestra at that time to welcome you around the corner to prosperity so keep in mind the dance in two weeks time and the annual New Year dance. The committee wish to thank their friends for past support and hope they will get the same support in future.

Warden H. D. Glover Reeve of Saltfleet Not A Candidate

The race for the reeveship of Saltfleet was thrown wide open with the announcement by Warden H. D. Glover that he would not be a candidate for office this year.

Mr. Glover has served in the township and county official life for eight years, but owing to press of business, is forced to withdraw from further activity.

REEVE TO RETIRE

WARDEN H. D. GLOVER

Head of the Westwark council and reeve of Saltfleet, who has announced he will retire from municipal politics at the end of the year in order to devote his time to the work of the Ontario agricultural council, of which he is president and other provincial committees in the interest of farming.

FATHER AND SON BANQUET

United Church Men's Club Holds Highly Successful Event—Headmaster of Ridley College, Guest Speaker

Fathers and sons to the number of upwards of one hundred gathered around the festive board in Trinity Hall on Tuesday evening on the occasion of the annual Father and Son banquet held by the Men's Club of Trinity United Church. A happy feeling of good fellowship prevailed and a program of unusual interest was provided.

C. P. Brown, president of the club, who presided, extended a cordial welcome to the large number of young lads present.

The speaker of the evening who was introduced by C. S. Bean, was H. C. Griffiths, headmaster of Ridley College, St. Catharines, a preparatory school for boys where close to two hundred lads are in attendance. L. a stirring and most appropriate address he stressed some of the ordinary realities in the lives of boys and young men. He declared that this was not a time for pessimism and urged his hearers to get away from fear.

He expressed the view that some had lost the idea of the dignity of work and said he would rather see a first class mechanic than a poor doctor. Any job if honest is a worth while job provided the boy or young man is happy at it and if we don't get happiness we don't get much worth while, he declared. He admonished the boys never to despise a job because it is lowly. It was dignified as long as you made it so. The speaker said he believed the average boy had deep religious convictions but parents shouldn't expect them to give voice to their convictions. He emphasized that the church was a good place to bring them up in.

Mr. Griffiths defined character as being that which we are. He stressed the fact that we are given away.

He stressed the value of money which should be looked upon as a trust, and also the important place which education occupies, the process of learning going on all through life. Degrees, he said, were not worth anything if they did not mean work. Success, he emphasized, was not necessarily the amassing of money. Success was simply the achievement of an object. With a youth alive to his opportunities, faithful to his duties, intent on carrying out his ideals and ideas, nothing could keep him from achieving, said the speaker.

At the conclusion of the address, E. J. Muir moved a vote of thanks to the speaker which was heartily endorsed by the meeting.

Prior to the address the toast to the sons was honored, being ably proposed by Mayor Boulter and happily responded to by William Greenwood.

An added feature of the evening were contributions to the program by John Booth, a student at McMaster University, who is a member of the International Brotherhood of Magicians. His slight of hand tricks and feats of Magic were followed with the keenest interest and constituted a clever performance.

Mr. T. L. Dymond contributed several excellent piano numbers.

Mr. C. D. Millyard led in the community singing with Kenneth Baxter at the piano.

United Church Ladies' Aid Holds Its Annual Meeting

The Ladies' Aid Society of Trinity United Church held its annual meeting in Trinity Hall, on Tuesday afternoon when the reports presented indicated the organization to have been most active during the year, substantial amounts having been raised for various purposes.

The organization will in future be known as The Women's Association of Trinity United Church.

Moral For Motorists

There is a bit of a moral for all motorists in the story of the Texan who wanted to inspect the scene of a fatal traffic accident the other day. A car had gone off the road on a mountain highway, killing its driver, so this Texan drove out to see, and got so interested looking at things that he lost control of his own machine—and it, too, went off the road and down into a ravine, killing the driver. The moral, of course, is self-evident; never get so interested in the sights around you that you forget to watch where you are driving. But that is a fault fairly easy for a motorist to lapse into. All of us have been guilty of it at one time or another. Usually we come through it all right. But we might as well remember that it can be a horribly costly little error.

Other People's Opinions

It is not always easy to decide how much attention we should pay to other people's opinions. It is a difficult course to steer, sometimes, between a slavish bowing to the opinions of those around us and a wrong indifference to such opinion. There is a wholesome middle course to follow; not a middle-of-the-road policy which has no convictions, but a fearless combination of rightful indifference on the one hand and sane sensitiveness on the other.—Toronto Globe.

Newspaper in Every Home

The extent to which newspapers are read in Canada has been illustrated afresh in figures announced at the sinetec annual meeting of the Association of Canadian Advertisers. It was announced that two and a quarter million copies of newspapers are sold every day in Canada. "This means," it was explained, "that every accessible family in the Dominion is receiving its daily paper." This is an impressive showing, and indicates that even in these present very trying years people are loath to give up their daily paper. On this continent at least the daily newspaper is the most widely read of all publications. It is an indispensable part of virtually every family's daily life.—Regina Leader-Post.

Come Again!

A California newspaper says: "Canadian ports are frozen for a good portion of the winter and wheat cannot leave these ports." "What more we need to do is to get our own educational system."—Halifax Herald.

A Matter of Opinion

If you see a woman wearing something nowadays, and the last thing on earth it looks like is a woman's hat, you can bet your life it is a woman's hat.—Ottawa Journal.

Twice-Written Works

The death of the Detroit author, Will Levington Comfort, recalls the fact that he had written his most successful book, "Routledge Rides Alone," twice. He labored at it for months while his family almost starved, and when on the way to the publishers, he lost the manuscript and it was never found. He had no duplicate copy, and although physically exhausted, he set his teeth and wrote the book over again. Other authors have performed much greater feats. Thomas Carlyle, whose "French Revolution" is one of the most stupendous volumes ever penned, involving the assembling of an immense amount of historical data, also wrote it twice. He loaned the first copy to a friend, and it transpired some weeks later that a maid had seen the manuscript on the table, and not realizing what it was, had used the pages every morning to light the fires of the house. Carlyle wrote it all over again. "Lawrence of Arabia" is another who had the same experience. He wrote his famous book on the Arab campaign, numbering 200,000 words, and one day a thief stole the bag containing the complete manuscript at a railway station. So Lawrence re-wrote the whole opus.—St. Thomas Times-Journal.

Carbon Monoxide Danger

A season of danger to motor car owners is on, that wherein garage doors and windows are closed against the cold and there is temptation to start the motor under such restricted ventilation. Particularly there are many motorists who know nothing of carbon-monoxide gas, and would be astounded to learn that the exhaust from the motor may contain one of the most deadly and quick-acting gases known.—Welland-Fort Colborne Tribune.

Australia Making Headway

It is spring time in Australia now, and the winter has been a sharp one, but the crops promise to be bountiful, and it is anticipated that the winter will be larger and better than for some years past. There has been an abundant rainfall, with correspondingly abundant food. The relief provided by the land tax reduction has heartened the farmers, who are now looking for

an upward trend in produce prices.—Montreal Daily Star.

THE EMPIRE

A Fair Deal for the Farmer

With the proper organization of and security for the agricultural producers there is room for a million or more of the urban unemployed in the fields which they or their near relatives but recently quitted. But proper organization and effective security are vital, and both these will be fruitless unless the producer is assured of a fair deal.—London Daily Telegraph.

Retrenchment in the Colonies

Whatever hardships the future holds in store for officers in Malaya they will follow on the heels of similar sacrifices which have been borne by officers in other administrations of the Colonial service for some time past. Moreover, this Colony is one of those where an income tax does not operate and, so far as we are permitted to know official intentions, is not contemplated. The fact may help Government officials here to face future financial sacrifices with rather greater equanimity than might otherwise be the case. It's a hard life, but it might as easily be harder.—Singapore Free Press.

World Problems

The return of prosperity to Britain, and all other countries, depends first and foremost on the achievement of some international agreements to relieve the burden and the increase armaments, to remove the incubus debts, to remedy the causes which have thrown the currencies of half the world into the melting pot, and to cut the bonds which strangle international trade.—Economist (London).

Quality and Quantity

The Americanization of industry in Europe has clearly not been a success. High tariff protection, rationalization, old-established societies of highly and mass-production are of no use to skilled people. They are remarkable results in the United States because of its vast internal market, its undeveloped resources, its continuous supply of cheap immigrant labour, its self-sufficiency in raw materials. Even in the United States the limit of the benefits to be obtained from rationalization and mass-production seems to have been reached, and indeed overpassed. There never were any benefits for Europe in turning over craftsmanship to mass-production; and to craftsmanship Europe should return.—Prof. R. B. Mowat, The Contemporary Review (London).

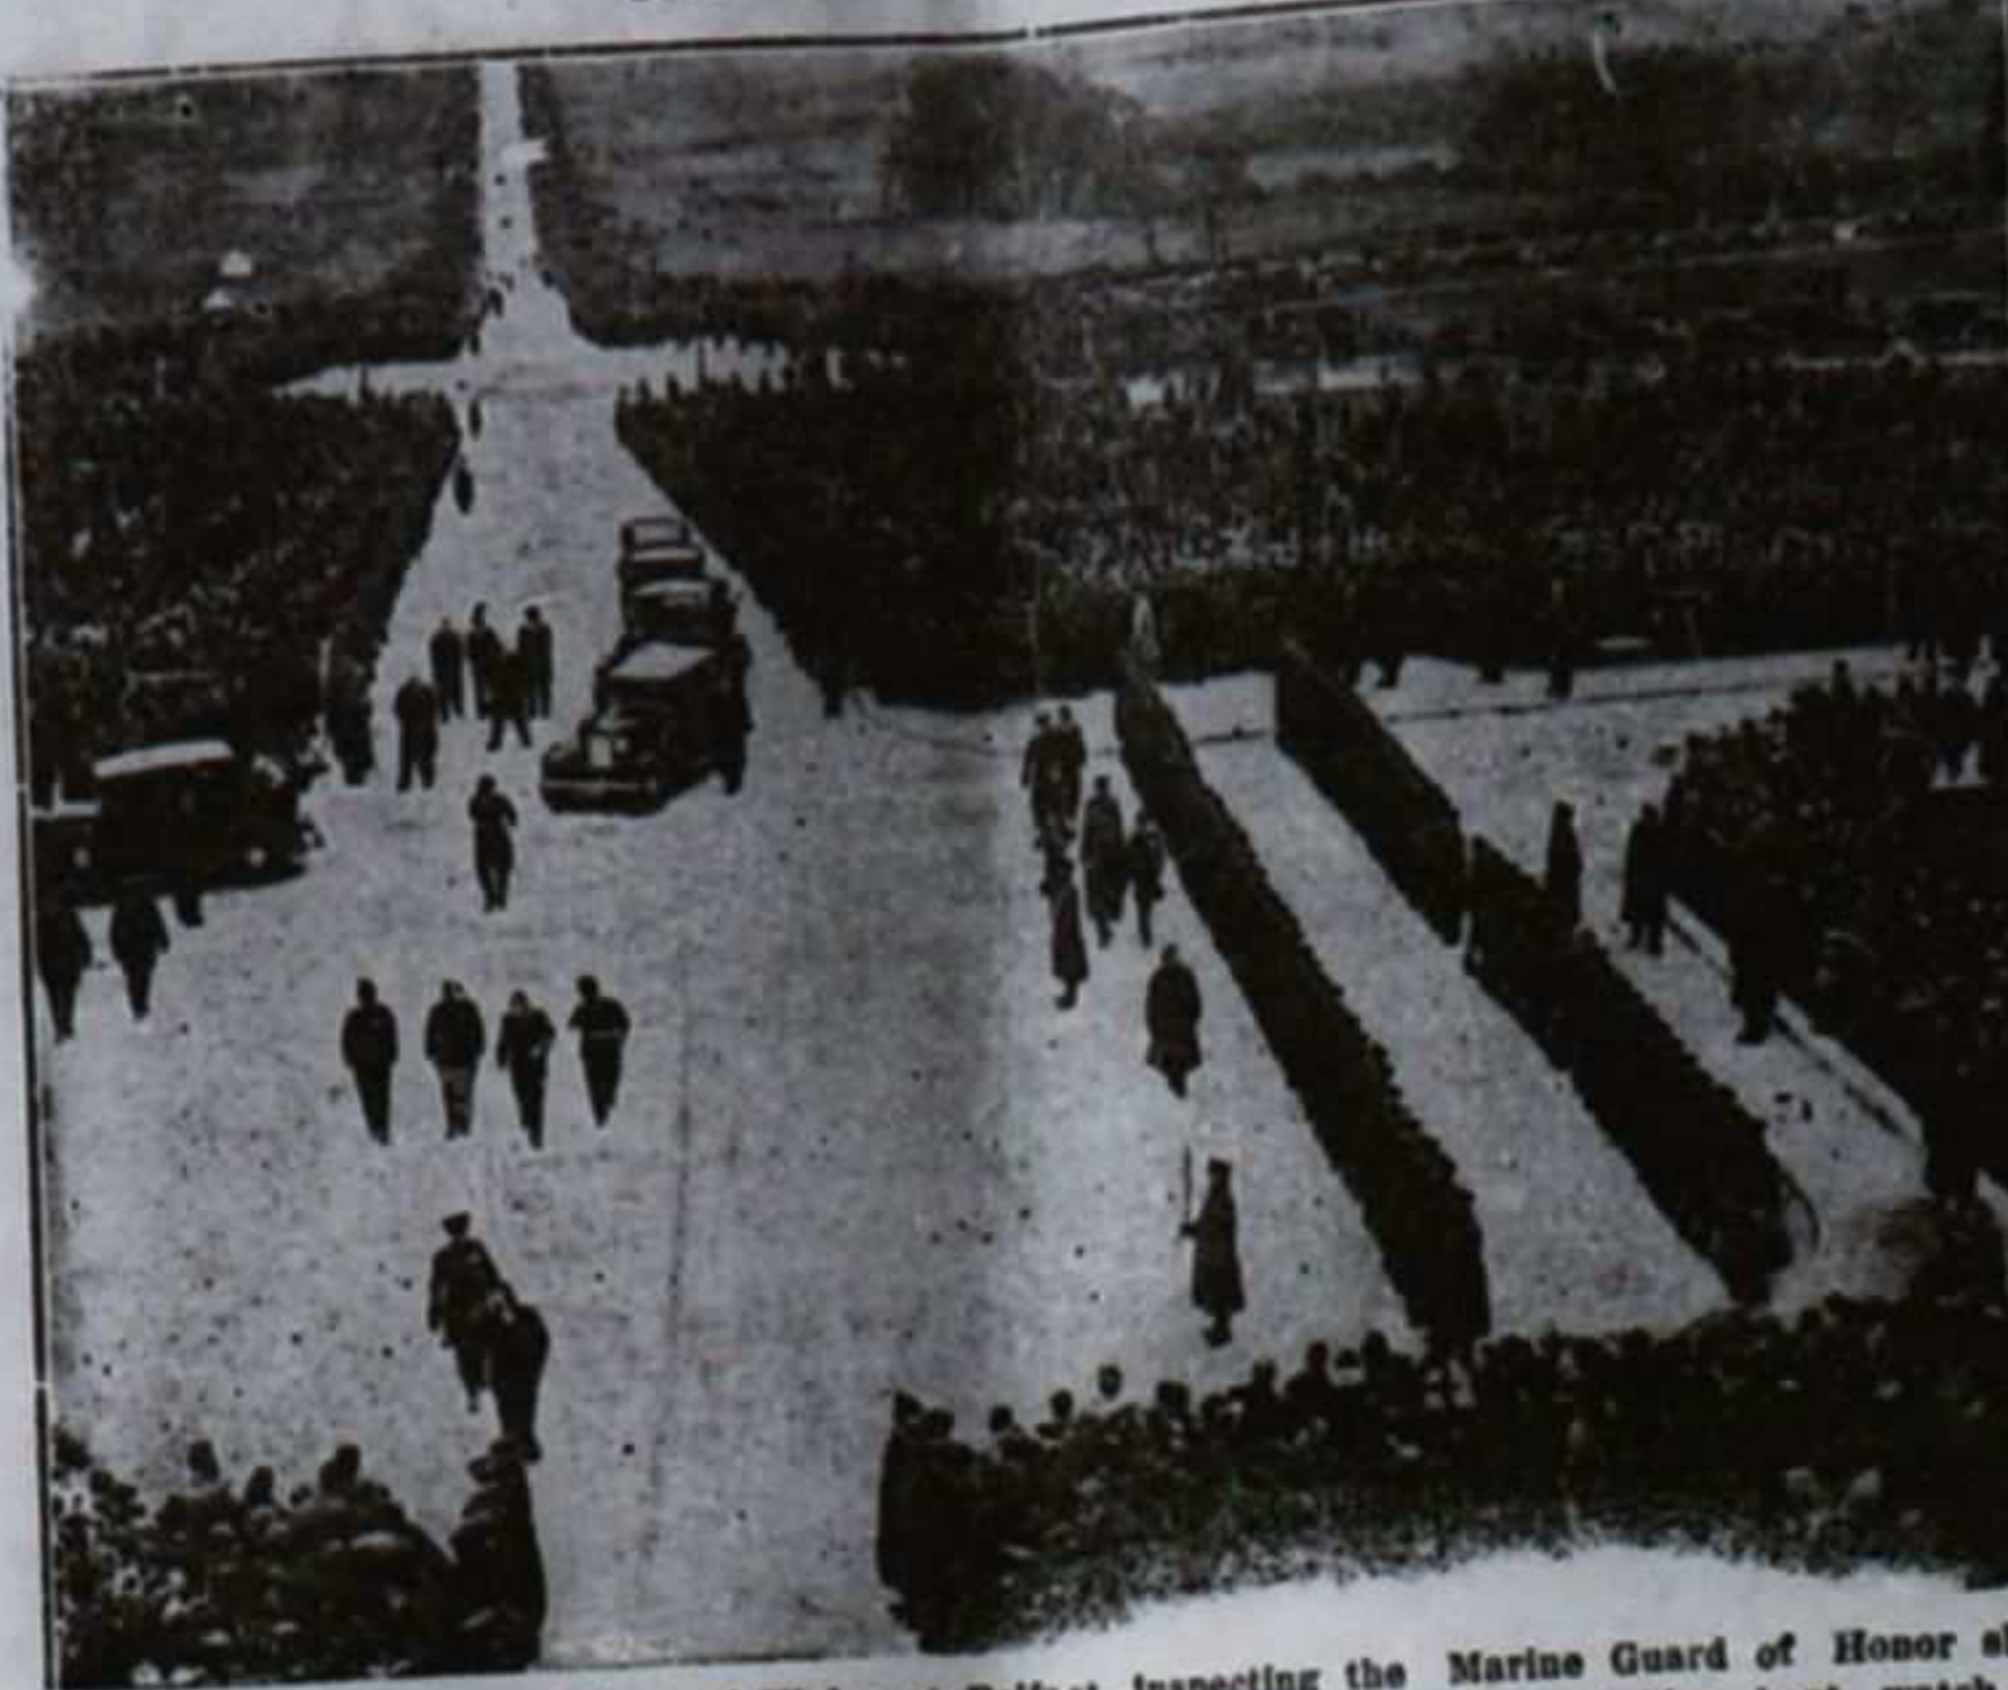

AMERICAN

The League and Japan

The League of Nations is in a rather tight place. It can only withdraw its control from Manchuria for the Japanese would simply refuse and the League would have no means of enforcing its order. No nation or group of nations is ready to go to war with Japan over Manchuria at this time. No nation is willing to break off diplomatic relations with Japan. Even the aggrieved Chinese have not done so.—Philadelphia Ledger.

Donald: "Go easy. This hill's not too steep." Doris (driving): "Can't you slow down—the brakes are not working." "You don't mean to say—" "Oh, don't get panicky, the hooter's all right."

The Prince of Wales in Ireland

A general view of the Prince of Wales at Belfast, inspecting the Marine Guard of Honor shortly after his arrival. Due to recent disturbances, over 12,000 soldiers and constables kept watch over Britain's heir.

British Imports From Canada Up

Nine Months' Period Shows Marked Increase in Volume

Ottawa.—British imports from Canada during the nine months ending September totalled in value \$28,762,646, compared with \$22,092,520 in the same period last year and \$25,046,690 in the same period of 1930. On a volume basis this is a very large increase over 1930. The larger items, totaling two-thirds of the whole, have increased in volume about 60 per cent., says a report of the Dominion Bureau of Statistics.

British imports from Empire countries during the first nine months of 1932 amounted in value to \$183,412,621, compared with \$150,865,955 in the same period last year. British imports from foreign countries in the nine months totalled in value \$336,502,765, compared with \$440,486,555 in the same period of 1931.

Heavy British imports in October of canned salmon from Russia and the United States, 143,899 cwt. from the former and 102,517 cwt. from the latter, against 17,709 cwt. from Canada, put the Dominion in third place in the exports of that commodity during the first ten months of 1932. The totals for the ten months were: United States, 174,534 cwt.; Russia, 165,665; Canada, 133,018.

Out of a total of 1,210 cwt. of lobster imports by Great Britain in October 1,100 cwt. were Canadian. During the ten months of the present year the total was 12,455 cwt., of which 21,151 cwt. were Canadian.

ON THE BILL

An actor complained to the producer about the size of his name in the advertisements.

"Oh," groaned the actor. "I know I'm not a star, but I do think my name should be featured. Why don't you mention the name of the show plus the principals, and then before my name put; 'And—?'"

"And!" cried the fed-up producer. "Why not 'But!'?"

Two Canadian Freighters Fight Gales and Fog On Great Lakes

Crew of S.S. Georgian Taken off Near Wunising—Steamer Novadoc Hits on Frontenac Shoals

Toronto, Dec. 5.—Two Canadian freighters, caught in the perils of late Autumn navigation on the Great Lakes, are slowly tilting toward Davy Jones' Locker to-day.

Aground on the rocks near Munising, Mich., the S.S. Georgian is breaking up under the pounding of huge seas and a 50-mile northwest gale. Her crew of 20 has been rescued.

Far down at the other end of the Great Lakes the S.S. Novadoc, with a crew of 21, including two women, is fast on Frontenac Shoals in Alexandria Bay Narrows, listing heavily and taking much water.

Heavy Gales

Belated Great Lakes steamers were, all day yesterday, battling heavy gales to make their home ports.

Storm signals were flying everywhere on Huron as one of the heaviest blizzards of the Fall made progress slow for the comparatively small up-bound and down-bound traffic.

A 50-mile northwest gale played such hob with the stranded Georgian that the salvage tug Maplecourt, out from Sault Ste. Marie, was forced to take off the Georgian's crew for safety.

A collie dog, Barney, owned by Captain Dahl Hudson, which refused to leave the boat Saturday night, was removed forcibly to-day. As soon as it reached the dock, it jumped from the coast guard boat and disappeared.

The Georgian, owned by the Northwest Transportation Company, went aground a week ago in trying to take shelter behind Grand Island. She is in bad shape, steadily being shifted further on the rocks by the rising sea and storm and is expected to be a total loss. The U.S. coast-guard steamer Seminole, which has been standing by the grounded vessel, was forced, by yesterday's gale, to seek shelter in Munsing Harbor.

Grounds in Fog

The other freighter, the Novadoc, struck hard in a fog. She is in command of Captain W. Beatty, Toronto, is owned by the Paterson Steamships Company of Port William, and sailed from Port William on Nov. 23 with a Montreal-destined cargo of flour, a large part of which has already been damaged by water.

The falling of a buoy light is suggested as the cause of the Novadoc's grounding.

22 Journalists Elected To Swedish Parliament

Stockholm.—There is only one lawyer but twenty-two newspaper men in the new Swedish Parliament, which meets for the first time January 10.

Farmers are the most numerous, with a membership of ninety-three out of 230, and five are farm workers. One of the newly elected Socialists is a policeman. Four deputies are women, one a Conservative, the others Socialists. The trade unions are represented by nine of their officials, while only four are manufacturers. Eighteen are industrial workers and eleven either trolley or railroad employees. Nine are either college professors, school teachers or clergymen. Other categories with

small representation are army officers, business men, office employees, craftsmen, public officials and civil engineers.

Italy Pledges Water For Peace in Tripoli

Mis, Oasis of Giorra, Tripoli.—Water as the reward of peace has been promised to the warlike tribes of this desert region.

"I have made you the greatest possible gift," said Marshal Pietro Badoglio, Italy's governor of Libya, in a speech here. "I have established peace in all Tripoli. Now I will have a great well dug to give you plenty of water."

A long ruinous rebellion was put down by Italian arms last year.

Hamilton Infant Saved From Flames

Almost Asphyxiated by Smoke, Baby Boy Rescued

Hamilton.—Rescued from a smoke-filled room by a fire officer when a blaze broke out in his home Sunday afternoon while his parents were away, Earl Waldron, the one-year-old child of Samuel and Mrs. Waldron, 29 Ferguson Avenue north, had a narrow escape.

According to information supplied by fire department officials, the babe was left in the care of a five-year-old lad. The boy had been playing on the street for some time before the fire, and was unaware of the trouble until the fire apparatus arrived.

Informed of the infant's presence in the house, District Chief Hotrum rushed to the bedroom above the flaming kitchen and returned with the babe. The child was in a rather serious condition, having inhaled quantities of the dense smoke, but was reported out of danger tonight. The fire, the origin of which was not ascertained, gutted the kitchen and then spread to a garage at the rear, causing a total loss of \$200.

Woman Rescues Boy From Police Dog

Hamilton.—Pluckily fighting a vicious police dog, Mrs. H. Upstall, 666 King Street west, probably saved the life of four-year-old Charles Baikie, 664½ King Street west, late Sunday afternoon.

While the snarling animal clawed its little victim, Mrs. Upstall grabbed it with her bare hands, overpowered it by choking it, and held it while Mrs. Peter Cheeseman, the aged grandmother of the boy, carried the little fellow into his home.

Young Baikie's right arm was terribly torn and teeth marks were visible on other parts of the body. Dr. C. T. McCabe cared for the boy at his home. His condition was said to be fair.

The boy had been playing in the front yard of his home, and was attacked there. The animal was taken to the city pound and will be destroyed. The head will be sent to Toronto for examination.

Belle River Man Wades Almost Mile to Aid Brother

Windsor.—Herbert Taylor of Belle River waded three-quarters of a mile and broke ice for 100 yards in Lake St. Clair to get aid for his brother, Ernest, marooned on a sunken motorboat.

Heavy weather prevented their plight from being seen from the shore. The water was up to Herbert's shoulders at times, but he made the shore.

He collapsed after telling of his brother's predicament, and Sunday night was reported recovering from bad cuts about the legs caused by wading through ice. His brother was brought ashore suffering from cold.

Dominion's Production Of Autos Up 25 P.C.

Production of motor vehicles in Canada at 2,232 units in October marked an improvement of 25 per cent. over the total of 2,342 cars made in the previous month and was more than double the corresponding total of 1,400 cars reported for October of a year ago.

The increase over September was wholly accounted for by passenger cars advancing in number to 2,561 from 1,741, this gain being more than sufficient to offset the decline in trucks to 562 from 601. Of the October output only 61 cars were made for sales in this country, the balance of 2,232 being for export.

102,225,400 Lbs. Sugar Imported From Empire

Ottawa.—Raw sugar imports in October amounted to 102,225,400 pounds, emanating entirely from the following British Empire countries: Australia, 36,187,500; British South Africa, 32,474,500; Fiji Islands, 21,239,000; British Guiana, 12,254,000; British West Indies, 5,737,900 (Barbadoes 4,204,800 and Jamaica 1,533,100). The import in October, 1931, was 89,171,000 pounds.

Canada's 903,500 pound export of refined sugar in October went to the following countries: Newfoundland, 784,500 pounds; British Honduras, 95,000; British West Indies, 21,000; British Guiana, 2,100; Japan, 200; Alaska 200 and St. Pierre 100.

Snowfall

Now at the end of this dark day that held silence and lowering skies close to its dun-colored hills— Comes this hurrying surprise.

Snow-white leopards surging together, Boasting with paw padded and furry, From fannable caves Sweep the hills.

What kingdom shelters those white pards, These creatures soft, gentle and bold Crowding at gate and door With frosty breath as sweet and cold?

—Ruth Langland Holberg.

Moscow Shorts

Russia and Rubber

Early in 1931 Stalin boasted that the Soviet Union assessed every source of natural wealth except rubber and predicted that rubber would also be available within a year. A two. The recent opening of a synthetic rubber factory in Voronezh following the erection of a similar plant in Jarrow, represents an attempt to realize Stalin's prediction. The Russian natural scientist Mr. S. V. Lebedev, the inventor of the new manufacturing process, which is known to be based on the use of alcohol, although its details are still kept secret. A similar invention was made in Germany during the war, but was abandoned as uneconomical. Under the Soviet system of state-controlled economic existence, internal costs of production are largely disregarded, provided that a new invention frees the country from the necessity of spending foreign currency on imports.

What Soviets Chiefly Read

The Soviet Union in 1931 spent over \$1,000,000 on foreign books. Most of this sum was applied to the purchase of natural scientific and technical works. Books on such cultural subjects as fiction, art, music, poetry and biography were reduced to a negligible minimum, as may be judged from the following figures regarding the distribution of the imported books: technical and precise sciences, 65 per cent; economics and politics, 16 per cent; agriculture, 15 per cent; medicine, 4 per cent; miscellaneous, 2 per cent. This absence of opportunity to purchase and read new books on cultural themes is one factor which emphasizes Russia's isolation from the intellectual and aesthetic life of the West.

Cavemen Tools and Old Gold

The construction of Dneproprostol the huge hydro-electric power station which was recently opened in Ukraine, turned up some interesting archaeological by-products. Over 150,000 ancient tools, some of which are believed to date back 25,000 years, were unearthed during the digging. Along with the primitive tools of prehistoric cavemen the builders of Dneproprostol found a 2000 B.C. monument of beaten gold, together with swords, coats of mail, lances and other war-time relics of the wild Zaporozhian Cossacks who held sway in this part of the country in the sixteenth and seventeenth centuries.

Preludes vs. Politics

An unofficial amnesty has been tended to the works of the Russian composer and pianist, Sergei Rachmaninoff. Up to the present season he has been barred, apparently because Rachmaninoff was living abroad and is not regarded as friendly to the Soviet regime. Now, however, the ban has been lifted and Rachmaninoff's works figure prominently in the early concerts of the season. Simultaneously a plea has been raised for a more generous rendition of the compositions of Scriabin, whose works have been characterized as "defeatist" and inconsistent with Communist ideology by doctrinaire Communist critics who insist on applying political standards to music.

Philatelists, Take Notice

The Soviet postal authorities have worked out a five-year plan for stamps. The stamps, issued in every year from 1933 until 1937, will commemorate a number of men and events. So the 1933 stamps will print devices devoted to Karl Marx, to the tenth anniversary of the Soviet Constitution, and to the Sparciade or athletic meet, which will be held in Moscow. Stamps of 1934 will deal with the tenth anniversary of the passing of Lenin, the sixtieth anniversary of the establishment of the World Postal Union and Russia's first subway, part of which is expected to be completed by that time. In 1937, the stamps will show the twentieth anniversary of the Bolshevik Revolution, and will commemorate such figures as the poets Pushkin and Nekrasov.—The Christian Science Monitor.

Another View of China

Dr. E. J. Dillon in The Fortnightly Review (London), declares that the Chinese nation is fast going to pieces. Manchuria is already a separate State, Tibet has only succeeded, but has risen in arms against the elusive "Central Government" without a formal declaration of war, according to the abridged rite of today. Tibetan troops have occupied Szechuan and the contiguous regions. A Tibetan Empire is being formed under the Dalai Lama. The provinces of Taktien and Kiangsi have embraced Communism and set up for themselves under a Sovietist Government. Yunnan is semi-independent. The thriving Province of Szechuan is misgoverned by a junta of half-dorcas rollicking generals, who recognize no authority but their own. In short, the unwieldy State which occupies

Lytton Report counsels Japan to hold to 1907 it up.

Picasso holds the mirror up to life, and according to the accuracy of its reflection is the measure of its art.

British Tennis Queens on the War Path

Off to Africa. These British tennis queens are heading for South Africa in search of new courts to conquer. Miss Fearnley Whitliff, Miss Betty Nettle and Miss Mary Hesley wave a cheery cheer from the deck of the Carnarvon Castle, as she puts out of Southampton.

High Speed at High Altitudes

Future travel by plane will be at altitudes of five or six miles, far above cloud and storm, in the calm air of this great height, thinks A. Boutaric, who contributes an article on the subject to the scientific column of the Revue Hebdomadaire (Paris).

Owing to the extreme thinness of the atmosphere at this height, both the air in the cabin and that which feeds the motors will have to be mechanically compressed. He writes:

The construction of airplanes is in continual evolution. Every year the aeronautical salon at Paris shows important improvements by which inventors have attempted to increase the speed, solidity, and safety of their machines. Setting aside for the moment all the technical details of these improvements, I would simply direct attention to the progress that seems to be bringing aviation toward high-altitude flight.

Many will doubtless ask what good can be accomplished by such an advance beyond developing aviation as a sport. They will be greatly surprised to learn that its effect will be to increase notably the safety of flight.

The greatest enemies of aviation, fog, wind, and storm, exist only in the lower parts of the atmosphere, below a height of about six miles. Above this all agitation of the air disappears; it is a region of calm, where storms are unknown. The airplane that flies at such altitudes need not fear that it will be lost in fog or carried away by tempest.

But at the same time that its flight is safer, it may also become much more swift. The principal thing that limits speed is the difficulty of reducing it sufficiently, in the course of descent, to allow a landing to be made. If the flight is at a great height, the descent will be correspondingly long, and the most qualified specialists believe that at ten miles elevation a speed of 350 miles an hour would be practicable.

A primary difficulty, which is in truth a serious one, at once presents itself. How can the pilot and the passengers live during a long journey at such a height, where the air is so extremely rarefied as to be quite unsuitable to breathe? The use of masks fed by pure oxygen, quite proper in a merely sporting flight, would be uncomfortable, and out of the question in a passenger plane. The only acceptable solution would be to place pilot and passenger in a hermetically sealed cabin where the pressure would be artificially maintained at a point near that which exists at the earth's surface, the renewal of the oxygen taking place at the same time as the absorption of the gaseous products of respiration. The construction of airplanes with such cabins would present some difficulty, but the celebrated balloon ascension of Professor Piccard to a height of ten miles has shown its possibility.

Another difficulty now presents itself. We must not only assure the proper functioning of our lungs at such a height, but also of the motors. Now these utilize the explosion of a gaseous mixture of gasoline vapor and air. The rarefaction of the air with increasing height involves a diminution of the explosive force of the mixture and so of the power of the motor. Says M. Boutaric:

Divers plans have been proposed to remedy this. One of the simplest was that of the late Auguste Hureau de Villers, who proposed to use a compressor run by the motor itself, or, more economically, by a small turbine operated by the gas of the exhaust.

In Hureau's apparatus a simple valve makes it possible to super-feed the motor to the desired degree. At a height of three miles air would be admitted at a pressure twice the normal pressure at this altitude. This means also increasing the speed.

Hitherto all the planes built on the Hureau plan have been for military use. Pilot and observers are uncovered, and breathe through oxygen masks. But as soon as we have planes with air-proof cabins there will be no trouble in compressing much further, insuring the attainment of much greater heights. Then transatlantic flights will present little difficulty, and New York and Paris will be only a few hours apart!

WELL MEANT

The Scottish express was about to start when an elderly woman ran to the platform in breathless haste. The guard pounced upon her, fairly lifted her into a carriage, and as he slammed the door the train moved out of the station.

The first stopping place was sixty miles down the line, and when the train arrived the guard saw the woman getting out of her carriage in a state of boiling indignation.

"You almost missed it, ma'am," he said.

"Missed it!" roared the woman. "I only wanted to post a letter in the late-free box in the train, and now you've brought me here."

A record sugar beet crop of nearly 150,000 tons was harvested in Scotland this year.

+ Do You Know? +

That although the Canada lynx is sometimes confused with the bobcat or bay lynx of the east, he is an entirely different creature? He is to be distinguished from his meaner relatives by his lighter gray color, tuft of long black hairs on the tips of his ears and his large, hairy paws. He feeds chiefly on rabbits though he also favors grouse and other game birds. It has also been reported that he sometimes kills deer and caribou. Above is the old aristocrat himself posing for one of the few pictures ever made of him outside of a zoo.

Owl Laffs

Wife—"I had to marry you to find out how stupid you are."

Husband—"You ought to have known that when I asked you."

And old lady approached a ship's officer on a dirty night.

Old Lady (moaning)—"Oh, I feel dreadfully ill. What do you think I should do?"

Callous Sailor—"Don't, that worry you, you'll do it."

Rebounds

There are three ways of getting out of a scrape: push out, back out, keep out. With the passing of the old comes the elimination of girls, control. One of the greatest pleasures in life is doing what other people say you cannot do. Records are broken by men who are so hard pushed that they have to break a record in order to win. When one sees a girl who is the picture of health he may suspect that she painted the picture herself.

Men sue for twice what they expect and happily pocket half of the latter amount. Nothing warms a girl's heart as quickly as promising to go through for her. No matter how angry you get, a pretty girl is as hard to ignore as the earache. Girls will never admit middle age until their chins become plural. Many a girl who thought she married a big gun discovered that she married a cap pistol.

A Song For Sally

Of happy days we hold a score, And time may bring us twenty more; But, let the years bring what they may We have today.

And with to-day, fast held and sweet, We challenge all that fate shall meet; With joy enough to last till night, Our hearts are light.

Brown (visited in office by his wife) "For heaven's sake, Helen, stop scattering cigarette ashes all over my rug!"

Joe—"Pretty dull magazines you're getting out. You'll never interest the public in them."

Bill—"Who cares? They are for doc-

Teen-Age Weakness

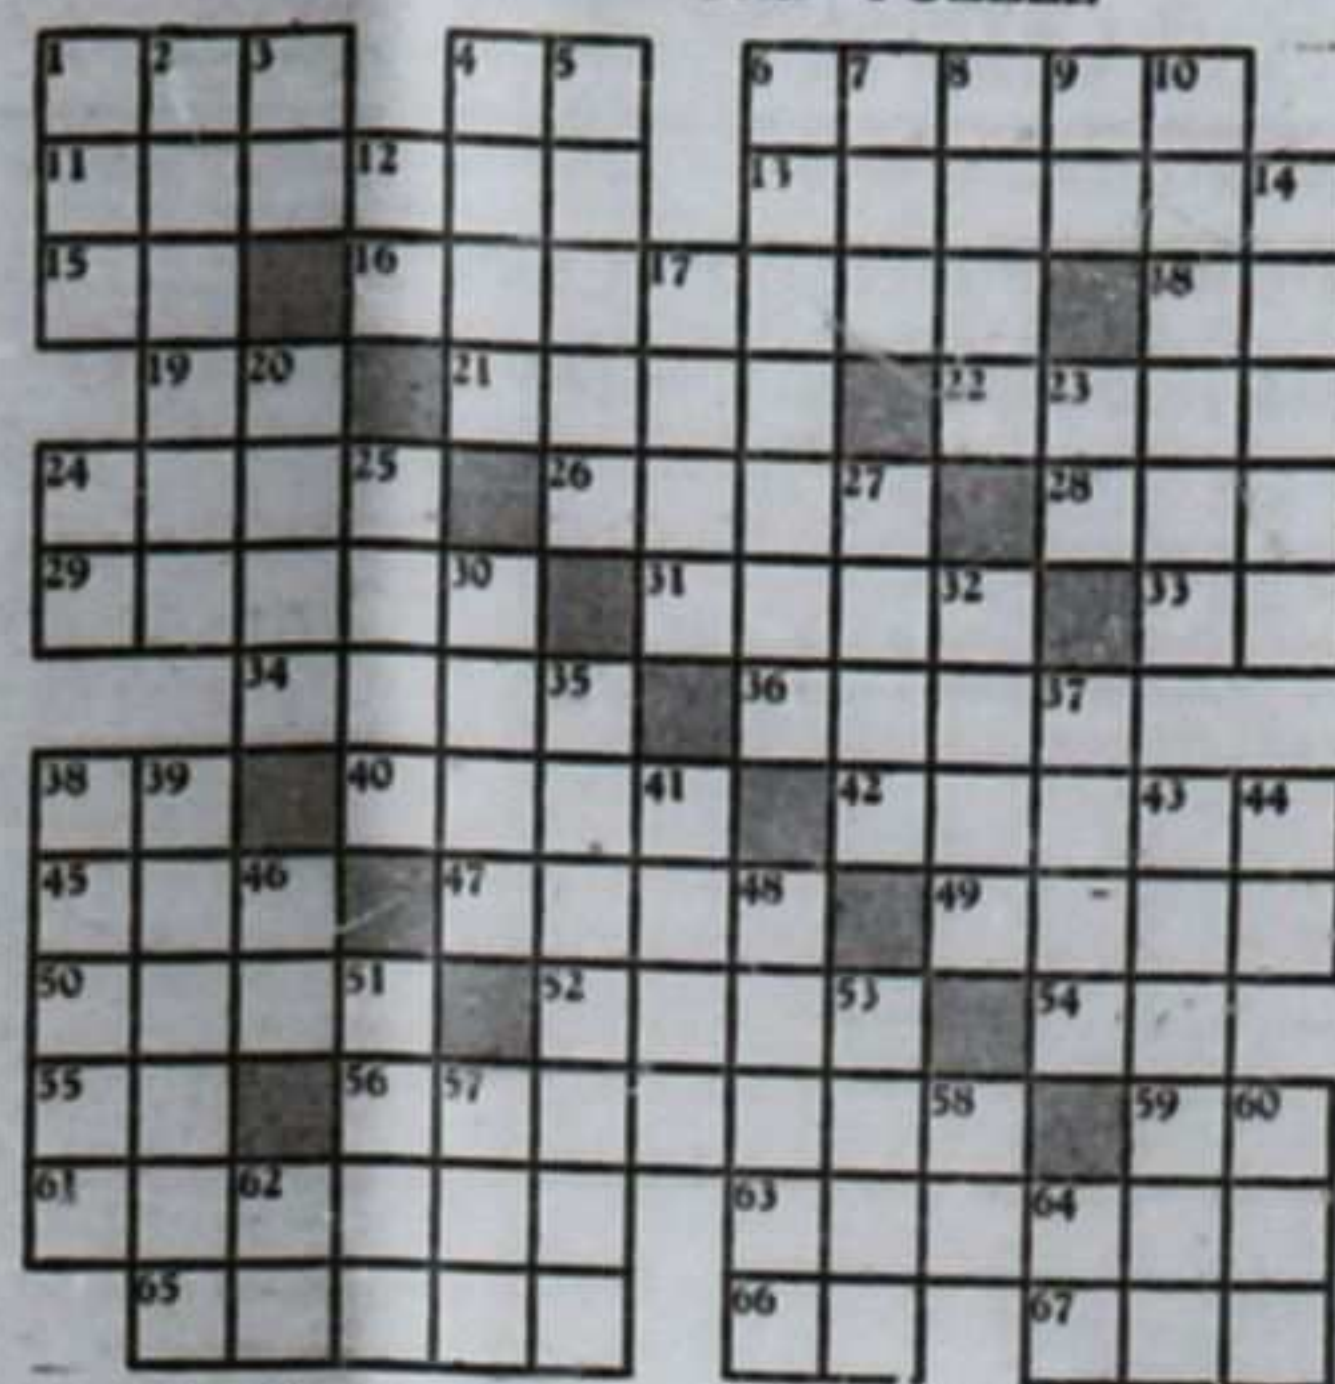

Mrs. Lunt Tells How She Learned That Dr. Williams' Pink Pills Benefit Growing Girls

"I swear by Dr. Williams' Pink Pills," writes Mrs. M. Lunt, Brandon, Manitoba. "When I was in my teens I had anemia very bad. My blood seemed to turn to water. A friend told me to try Dr. Williams' Pink Pills. In three months I felt like a different person. I have since taken a course of these Pills each spring, to build up my blood, and I cannot speak too highly of them."

Dr. Williams' Pink Pills have proved an invaluable blessing to thousands of young women, by creating an abundant supply of red blood cells. Carried to every part of the nervously exhausted system, this rich blood revitalizes and rebuilds it in a truly wonderful way. ALL run-down conditions are similarly benefited by these Pills. Try them. At druggists, 50c package.

Half of the buying power of the United States is in the hands of people earning \$2000 or less annually.

EXCESS FAT RUINING HER HEALTH

Better after Losing 14 lbs.

There are a number of bodily ailments that are apt to arise in overweight men and women, and if excess fat is reduced in the right way, very often improved health follows—as it did with this woman.

"I used to have a great deal of fat that seemed to nearly stop me breathing, especially when I knelt down to do my housework, or was walking up a hill. I would simply have to fight for my breath for about 20 minutes. But now that has all gone, thanks to Kruschen. I have lost 14 lbs. in weight, and am able to get about in comfort. I can work all day and not feel tired. I feel so much better, and am so pleased to have lost some of the fat that was steadily gaining ground with me, and ruining my general health." (Miss A. K.)

There are six vital mineral salts in Kruschen. These salts combat the cause of fat by assisting the internal organs to perform their functions properly—to throw off each day those waste products and poisons which, if allowed to accumulate, will be converted by the body's chemistry into fatty tissue. Unlike ordinary aperients, Kruschen does not confine its action to a single part of the system. Its tonic effects extend to every organ, gland, nerve and vein.

Size 16 requires 3½ yards of 39-inch material.

HOW TO ORDER PATTERNS. Write your name and address plainly, giving number and size of such patterns as you want. Enclose 15c in stamps or coin (coin preferred); wrap it carefully for each number, and address your order to Wilson Pattern Service, 73 West Adelaide St., Toronto.

Little Things

Little things that ran and quail And die in silence and despair;

Little thing that fight and fall All fall on earth and sea and air;

All trapped and frightened little things, The mouse, the coney, hear our prayer.

As we forgive those done to us, The lamb, the linnet, and the hare,

Forgive us all our trespasses, Little creatures everywhere.

—James Stephens, in "Modern British Poetry."

URGENT

Adolphus walked into the ironmonger's shop.

"I want a bucket," he said. "It must be one that will hold plenty of water."

The ironmonger produced a large bucket. Adolphus said:

"That will do," he said at last. "Please send it round to No. 16, Springfield Road."

He stroiled to the door. Then he turned again.

"Oh, and you might send it soon," he added. "You see, our house has caught fire."

For COLDS

"I always use BABY'S OWN TABLETS to break up my baby's colds," writes Mrs. Wilbert Colquhoun, Sturgeon Falls, Ont.

"When I see a cold coming on, it is to BABY'S OWN TABLETS that I turn," writes Mrs. Robert Greenhorn, Phillipsville, Ont.

Mothers everywhere report in like vein of the safe, sure results that follow the use of BABY'S OWN TABLETS in treating children's colds, teething troubles, simple fevers, disordered stomach, colic, constipation, 25 cents.

Seeks Honey Market in Britain

Prof. E. J. Dyce, head of the Apiculture Department of the Ontario Government, who sailed for Europe last week in the "Ausonia," the last Canadian to leave the St. Lawrence to Montreal this season. Prof. Dyce will act as expert for the Ontario Honey Producers in Britain in their contemplated effort to obtain a wider market in the Old Country for their products.

America and Japan

By JOSEPH C. GREW

American Ambassador to Japan. The American people are heart and soul behind the peace movement and behind those who have labored to bring about a situation where warfare between civilized nations will be as extinct as human slavery is in civilized nations today.

There is another matter in which the American people are interested, and that is a financially stable and prosperous Japan. Nobody can appreciate better than you business men that financial and economic prosperity is a corollary of peace.

Organized warfare of any nature is a heavy financial burden. In some cases it is financially and economically devastating. The machinery of warfare is itself one of the greatest drains upon the exchequer of the world. The peace policy of the United States, far from being contrary to the real interests of Japan, is precisely in accord with those interests.

As for ways of working out the problems involved in this world movement, differences of opinion inevitably arise. There can be no more important duty for statesmanship and diplomacy today than to smooth out and align such differences of opinion.

Pity

Look thou with pity on a brother's fall, But dwell not with stern anger on his fault; The grace of God alone holds thee, holds all; Were that withdrawn, thou too wouldst swerve and halt.

—J. Edmonson.

OBITUARY

MRS. LENA GREEN

Constable James M. Wentworth and Mrs. Wentworth will have the deepest sympathy of many friends in the sad bereavement suffered through the passing of their daughter, Mrs. Lena Green who died at the General Hospital, Hamilton, on Thursday, December 1st, after a lengthy illness. She was in her 35th year being born in Grimsby in 1897. She is survived by two daughters, Lois and Jean; her parents; one brother, Marvin (Cyclone) Wentworth, of the Montreal Maroons; and two sisters, Miss Eleanor Wentworth, of Toronto, and Mrs. H. H. Bristol, in Lynwood, Cal. The funeral took place on Sunday afternoon from her parents' residence, Grimsby, to Queen's Lawn cemetery. Rev. J. A. Ballard, of St. Andrew's Anglican church, conducted the service at the home and at the graveside. The bearers were: Lloyd A. Pope, George McKay, Wilfred Carew, Gordon Lawson, Roy Soule and Percy Francis.

FUNERAL OF THE

LATE MRS. KITCHEN

Fellow citizens and friends in large numbers gathered at the funeral of the late Mrs. Kitchen, Main St. East, on Thursday afternoon last to pay their last tribute to a highly regarded citizen. Rev. E. A. Earchman, pastor of Trinity United Church of which she was a member, conducted the service. Many beautiful floral tributes surrounded the casket. Interment took place in Queen's Lawn cemetery. The pall bearers were: G. B. McConachie, David Allen, A. E. Howard, G. M. Beamer, J. H. Bowen and C. W. F. Carpenter.

JOSIAH WADGE

The death occurred at Smithville on Thursday last of Josiah Wadge, brother of Richard Wadge, Harvey Wadge and Mrs. Peter Felker, Grimsby. Deceased succumbed after a brief illness of pneumonia. He was in his 71st year. He had lived all his life on the farm. He leaves two sons, Harry in Smithville and Harley, with whom he lived; one granddaughter and two grandsons; a sister Mrs. Albert Speck, Jordan Station. He was a member of Smithville Masonic lodge, the Eastern Star. Pall bearers were Fred Boulter, Robert Book, Amiel Schneck, John E. Lymburner, Frank Hayes and John Patterson. Interment was in Grace church cemetery.

\$150,000 Fire In Hamilton On Saturday

Fire of unknown origin broke out on Saturday night in the premises of Wilkinson-Kompass Limited, wholesale hardware, 30 MacNab Street S. Hamilton, and did damage estimated at \$150,000. Davis-Lesson Limited, printers, who occupy a portion of the building, suffered heavy damage from smoke and water.

The two upper floors and the roof of the building were gutted, and the blaze proved a stubborn one by reason of the large quantities of paints, oil and like materials stocked in the warehouse.

The fire was discovered about 9 o'clock on Saturday night by Fireman John Cusick, who was passing the building, and saw flames on the upper floors. When firemen reached the scene the fire was blazing savagely and a fairly brisk wind was prevailing. After a heroic struggle, the firemen, however, succeeded in checking the flames, and thereby saved adjoining properties.

Men Were Re-Arrested After Being Discharged

Charles Thompson, Elmer Kimball and William Olmstead, Brantford, who have been in custody at St. Catharines, following their discharge at Simcoe on charges of theft of poultry and immediately re-arrested and then brought to that city to answer to alleged theft of a like nature were remanded again in Friday's police court by Magistrate Campbell, upon the request of Crown Attorney Lancaster. The offense which they allegedly committed was the theft of 24 barred rock fowl from the premises of Wallace Goldring of Clinton Township on October 19th, which fowl were later identified by the owner at Hamilton, when sold to a poultry dealer.

ENGAGEMENT

The engagement is announced of Jessie Lillian, daughter of Mr. E. V. Weil, and the late Mrs. E. V. Weil, of Hamilton, Ont., to Sidney E. Warner, Long Island, N. Y., son of Mr. and Mrs. W. D. Warner, Knightsbridge farm, Grimsby, the marriage to take place quietly early in January.

Social and Personal

Mrs. Jas. Black of Attercliffe spent Thursday with Mrs. Peter Felker, Oak Street.

Mrs. Wm. McCabe, of Hamilton, and Miss Gertrude Felker, of Toronto, attended the funeral of their uncle Mr. Josiah Wadge, of Calisto.

The friends of Mr. George Kammacher, Sr., will be pleased to see him about again after being confined to his home the past week with the flu.

Mrs. P. Felker, has returned home after attending the funeral of her brother, Mr. Josiah Wadge, of Calisto.

Mrs. Fred Jewson and Son Havelock of Grimsby Beach, are sailing on the S. S. Montcalm from St. John, December 9th, to visit the former's mother, who has been very ill, at North Shields, England, and also visit Mr. Jewson's sisters in London and Hastings.

Mrs. H. A. Yenny, returned, following a few days spent in Toronto last week, where her daughter, Miss Lillian Yenny underwent an operation, which proved much more serious than was expected. Her friends will be pleased to know she is recovering very nicely.

NEWS

Last Thursday there were two more boys' basketball games. Mike Fitkowski's team (A) played Earle Cornwell's team (C) and won by a score of 10 - 6.

In the junior game John Wisniewski's team (E) defeated Fraser Morris' team (G) by a score of 19 - 14.

These games are certainly crammed with action. The local school will not miss rugby until the boys league is finished. Never-the-less the boys are shaping up nicely and are improving steadily.

One thing is obvious, G. H. S. certainly should have better boys' teams this year than last. Mr. Wood is to be congratulated on the work he is putting on athletics and we hope him success.

Tuesday, Dec. 6, two more games were played. Team B was victor over team D with a score of 19 - 14. Team H took team F for a ride with a 15 - 9 win.

These games were rather loosely run as most of the other games have been. It is impossible to have rugby players play basketball and not have charging, blocking and like offences.

Wednesday, Dec. 7, saw the completion of the Exams. Now everybody is

waiting patiently (?) for the results. Afraid of the worst but praying for the best.

On Wednesday Miss Chase stated there would be no Inter-school basketball game the coming Friday in denial of a current rumour. There will be one a week from Friday, however, with St. Catharines at the local school gym.

Lesson 11, Dec. 11. The Christian use of leisure. What a man does when he is free to do as he pleases may make or mar the man. Multitudes in our generation are coming into an inheritance of increased leisure without knowing how to use it. In most lands the twelve hour day is disappearing and the five day working week is being considered. There is the problem of how to use profitably the hours that are not spent in regular employment. There is the problem of the right way to enjoy rest and recreation. Timely indeed is the study of the Christmas use of leisure, and of God's happy solution of these problems - 1st. Corinthians, Chap. 10.

CASE WAS DISMISSED BY THE MAGISTRATE

Holding that the section under which a charge of rebating an insurance premium was ultra vires, Magistrate Burbridge dismissed the

charge against Carl J. Jennings, at Hamilton.

The magistrate said that there was ample evidence to bring the accused within the meaning of the section. The rebate of \$62 was covered by an endorsement, but there were one or

two questions of law brought up by counsel at the trial which had to be settled. The first was that of inducement. This inducement was probably the low premium, but the low premium was reached by means of a sort

of discount. Regarding the question whether the parliament of Canada had power to legislate against rebates such as the one in question, the magistrate said that there was no doubt in his mind that the section was ultra vires.

If you Really want a small Business say nothing about it!

Retailers who don't want a bigger business should say nothing about it, for, if they began talking about it in the form of advertisements, they would get new customers whose requirements would just distribute them — would compel them to buy more, deliver more, work more.

There's a story told about a retailer who certainly didn't want a big business. He was playing checkers with a crony in some place of hiding in the rear portion of his store. A customer entered. The crony said, "There's Mrs. Black." "Hush," said the retailer. "If we don't make a noise, perhaps she'll go away!"

The way to a bigger business is as plain as the nose on one's face; it is customer multiplication. A retailer with an urge toward bigger things should give his main thought and effort to customer multiplication.

Some retailers can never hope to have a big business even if they wanted one — they lack the ability, the energy, the ambition, the understanding needed to make a big business. They are content with a small business, and would be really unhappy if their business was growing rapidly as a consequence of circumstances outside their control. They would feel like a man in a wagon whose horses were running away with it!

Some retailers, however, have an urge to make their business larger. They dream of the time when they will have one big store, or a flock of 'chain' stores. They want a much bigger income than their present one. Perhaps they dream of a time when they won't have to work, when

they will have much leisure to be spent pitching horseshoes, or in bowling, or in travelling, or with books, or in a country home.

Customer attraction can be accomplished variously, but there is one essential means — press advertising. Advertisements go where personal salesmen and even letters can't hope to go, and they have a profound influence on readers of them — they soften resistance, dissolve apathy, create confidence and goodwill, and direct the steps of buyers. And they are cheap! And buyers — not sellers — pay for them, and are glad to pay for them! Buyers always go, in large numbers, and of their own free will, to the store that spends a lot of money on advertising!

Why should any ambitious retailer hesitate to contract for advertising which his customers will pay for gladly?

Going Forward With Grimsby And District

Here and There

Over 100,000 lbs. of oids are exported annually from Canada, principally to Germany and the United States. They are caught along the lower St. Lawrence River and off the Atlantic Coast.

A total of 544,129 radio receiving licenses have been issued by the Canadian Government Radio Branch from April 1 to September 30, 1932, or approximately one to every eighteen persons of the population of the Dominion.

A movie theatre has been installed on R. M. S. Aorangi on its Australasian run and passengers had the first entertainment in that line on a recent voyage. This is the first ship to reach Vancouver carrying sound movie equipment.

China's first woman barrister, Mrs. Lo Soon Kim Teo, was among the passengers aboard the Empress of Russia, recently sailing from Vancouver. Mrs. Teo obtained her legal training in England and is attached to the Hong Kong bar.

The Canadian people seem to have developed a considerable taste for macaroni, vermicelli, spaghetti and the like Italian food preparations. Output of 14 Canadian factories in 1931 was 20,211,425 pounds as compared with 16,819,625 lbs. in 1930.

With Remembrance Day in our minds, it is timely to recall the brief epitome of Canada's part in the war inscribed on a tablet in the House of Parliament at Ottawa:—"Six hundred twenty-eight thousand, six hundred forty-two bore the badge of Canada in the Great War; sixty thousand six hundred sixty-one met death and passed on."

Good hunting is reported from the Bates Camp, near Matagami, Ontario, on the main line of the Canadian Pacific Railway, seventy miles east of Sudbury. Moose and deer are very numerous close to the camp and in one morning a couple of U. S. hunters secured a fine bull moose and a deer. They killed to the limit of their licenses within a few days.

A free scholarship to be held at L'Ecole Polytechnique of the University of Montreal, offered by the Canadian Pacific Railway to minor sons of employees of the railway, was awarded to J. P. Lecavaller, 18-year-old son of Ephrem Lecavaller, chief clerk at the Mile End Station. The award entitles to five years study proceeding to the degree of Bachelor of Civil Engineering.

Canadian Pacific Railway low rate return bargain excursions, a highly popular feature of the railway's operation since February last, have been and will be well maintained up to the end of the year. Outstanding recently have been the trip to Chicago from Montreal and the shorter trips into and out of the major cities from and to the surrounding provinces. The rate and a quarter fare for return trips during the Remembrance Day holiday were well patronized and this concession is again to be offered for the Christmas and New Year holidays. (376)

The Quebec Festival of French-Canadian Folk Lore and Handicrafts at which habitation artists born and bred on the soil of Quebec province, and well-known artists from far and wide rival one another in recovering the spirit of Old France, and old New France and the age-old culture of the Galle race, will be held this year October 16-18, according to an announcement made by the Canadian Pacific Railway, organizers of the Festival.

Traveling in two Canadian Pacific special trains, about 250 of the most eminent figures in the British medical world left Montreal for Winnipeg to attend the first convention of the British Medical Association held in Winnipeg. They were preceded by a group of 60 members of the British Tuberculosis Association, who attended a convention of tuberculosis specialists at Winnipeg, before going to Winnipeg.

"In view of the fact that this is the last year in which Canada has a seat on the Council of the League of Nations, I could not resist the request made to me by the Prime Minister to represent the Dominion at Geneva," said Sir Robert Laird Borden, former Prime Minister of Canada, as he sailed for Europe recently aboard the Empress of Scotland.

Every activity of the Canadian Pacific Railway was stressed this year at the National Exhibition at Toronto, which was opened formally by E. W. Beatty, chairman and president of the board. An outstanding feature of the company's exhibit was the model of the new 42,500 ton Empress of Britain, greatest inter-oceanic passenger vessel, launched by the Prince of Wales last June and to be in service between Quebec and Great Britain next year.

More than \$100,000,000 will be spent in each of the next three years on power production now under development in Canada. Although there are other plans for important building projects, it will have a more intimate bearing on the industrial development of Canada than these new power plants planned by the power industry.

Youth Dies, Brother Is Hurt When Motor Car Strikes Buggy

A youth was killed, and his brother seriously injured on Monday when a car crashed into their buggy on the Provincial Highway, west of St. Catharines. Leslie Cornan, Louth Township, died on the way to the hospital, while his brother Leo is in the hospital, but is expected to recover. C. V. Starkweather, Tonawanda, driver of the car which struck the buggy, told police that there was no light on the other vehicle. The car struck the buggy from the rear, inflicting fatal injuries to the horse and throwing both occupants out. Starkweather was not arrested.

THEFT OF FOWL IS CHARGED

Charles Thompson, Elmer Kimball and William Olmstead, all of Brantford, were released from custody at Simcoe on Monday and immediately brought to St. Catharines to answer a charge of alleged theft of 25 chickens from Wallace Goldring of Clinton Township on the 19th of October. The trio were arrested at Hamilton with a quantity of fowl in their possession and going to identify this quota. Provincial police were unable to register a conviction there and they were dismissed, but the authorities here are more optimistic of laying the blame upon the three. The case was remanded until this Wednesday, owing to the absence of Crown Attorney Lancaster.

Tendered Dinner

The dinner was tendered to the counties of Welland, Lincoln and Wentworth by the following firms: Brennan Paving Co., limited; Archibald-Birdsall, limited; Roy Honsberger; Curran & Briggs, limited; Consolidated Sand & Gravel, limited; Canada Crushed Stone corporation, limited; Canada Cement Co., limited; Gordon Crushed Stone Co., limited; Imperial Oil limited; Windmill Point Crushed Stone Co., limited.

The Week's News of The Surrounding District

BEAMSVILLE

The department of game and fisheries has granted permission to establish a crown game preserve in the township of Clinton, to be known as the Beamsville Crown Game preserve. Friday was the last day for the payment of the second instalment of village taxes. Receipts this year compare well with other years.

Several families have already applied for relief from the village. Those in need of fuel are allowed to cut wood from the village property at the quarries, under the direction of the relief officer.

The council intends to take some action in an endeavor to get the radial tracks removed from the village streets before the winter. This would create some employment.

The board of education had a lengthy session Friday night, to wind up the year's business.

Correspondence was tabled from J. B. Fairbairn deputy minister of agriculture for Ontario, regretting the late arrival of the vocational classes at the Royal Winter fair, as he had made arrangements for the pupils to meet his excellency the governor-general; from the high school principal, asking for a grant for special books as prizes to be presented at the commencement next Friday night.

The report was received of G. A. Carefoot, public school inspector, giving a most satisfactory outline of his autumn inspections. He stated in part:

"The number in each class room is not too large, and the reduction of your staff has not interfered with the efficiency of the school. The classes are well divided, and the new arrangements should prove satisfactory. The teachers are doing satisfactory work, and the outlook is for a very successful year."

The report of Miss M. Carson, school nurse, showing 175 inspections made during the month of November, was received.

A total of 181 is reported on the roll of the high school, which does not include the attendance in the three vocational classes. The public school figures showed 179 enrolled.

American buyers were offering farmers in the south section of the township eight cents a pound for turkeys, live weight, the latter part of the week. It is reported that flocks of geese and turkeys have increased largely this fall, in comparison with other years, and that the holiday supply will consequently be heavy.

Members of the Beamsville and Clinton township councils are in Woodstock to-day, inspecting fire-fighting apparatus.

Messrs. Trapnell, Rollaston and Crause, of St. Catharines, appointed by County Judge Campbell to make the second equalized assessment of the county, have about completed the work they started out to do. The committee was looking up values here on Monday, and have some portions of Merritt and Niagara to complete before placing their findings before Judge Campbell, who is the arbitrator appointed by the county council.

A glance at some of the figures in the recent compilation last spring in comparison with some of the assessment the past six weeks shows that the variations made in this last assessment will about equal in the final finding the totals compiled in the earlier assessment. Where reductions have been made in some cases, in others the assessment has been raised on the equalization of eight months back. At a glance the most prominent of the townships launching the appeal for a second assessment is likely to remain much nearer the figures of the first compilation when comparisons have been made. All reports of the committee are scheduled to be in the judge's hands by the end of the week.

Lorne Culp, of South Grimsby township, received the news Monday of the death of his brother, Alburn, in an auto accident in Detroit. Deceased leaves a widow and two sons. One brother, Lorne, out of a family of eight, survives. The funeral took place at St. Ann's cemetery on Tuesday.

The principal and some of the staff of the Stamford collegiate institute were looking over the agricultural vocational school here Monday, with intentions of making a start along the same lines at the Stamford school.

VINEMOUNT

The regular meeting of the Women's Institute will be held in the hall on Thursday, December 15, when the District Officers will visit the branch. An address, contest and sale will be held also.

A play "The Mystery of the Third Gable" will be presented by the Dramatic Club of the Vinemount Women's Institute.

men's Institute in the hall on

the foot proved efficacious. In
an six months Miss Majina
back in Connecticut again, sad-
der, and humbler to the extent
she was willing at last to take
mother's advice and turn the
home into a tea and Sift

at excursion into art, how-
all was lost. Instead of can-
walls of the Apple Blossom
outpourings of their
warded soul: ruralists that
fill the different offices.

Thursday night former Reeve J. H.
Caracallen was waited upon by
a number of ratepayers from the town-
ship, requesting that he again offer
himself as a candidate for municipal
office. It is understood that he gave
no assurances to the deputants as to
what course he would pursue, but
agreed to give a definite answer in
the near future.

Other names mentioned prominently
were Ellis and Burton Cornan,
brothers, both of whom are school
trustees, the former having served on
the high school board since its in-
ception, and the latter on the public
school board here for the last six
years. It is not known what either
of these two men may do in the event
of receiving a nomination.

The new strip of highway built at
Van Wagner's beach was officially
opened last week and presents a fine
appearance, adding greatly to this
much traveled scenic route.

The welfare board of the township
met on Monday night in conference
with all organizations in the township
for the purpose of soliciting their co-
operation in connection with relief
work.

The bazaar held on Wednesday un-
der the auspices of the Women's
auxiliary of the Church of the Re-
deemer was a decided success. The
drawing for the quilt was won by A.
Keith, Toronto, and for the baby car-
riage robe by Miss M. Smith, Fruit-
land.

The fire department had another
run on Tuesday afternoon to the home
of George Bell on King street. Smoke
was seen coming out through the
roof and at once the fire alarm was
sounded to be followed by the fire
engine. In a few minutes the men were
in action with the chemical hose, only
a small amount of water being used
to wet the roof. The fire was soon
extinguished, but not before about
\$300 damage had been done to house
and contents. Again on Wednesday
a phone message was received that a
house on Webster's side road in the
township was on fire. Reeve Thomas
Dele, the chief of the fire department,
and others immediately responded,
but were unable to find any trace of
a fire. It turned out that an error
had occurred in the relaying of the
phone message, the fire being on
Lewis side road, near Winona, at the
home of W. D. Fletcher. Fortunately
the services of the department were
not required.

A very pleasant evening was spent
at the first get-together of the Sat-
urday Night Euchre club at the home
of Charles and Mrs. Drewery, last
week. The ladies' high prize was won
by Mrs. Walter Manary; gentlemen's
Robert Lantini; consolation prizes,
George Schram and Harold Dean. The
hostess served a dainty luncheon.

The Ladies' aid, of Chevie Freshy-
taylor church, held its second annual
bazaar on Monday. The attendance
was very large, and the bazaar was
a great success.

Rev. J. A. Isaac acted as chairman
of a substantial sum was realized from
the bazaar and concert.

W. S. McIntire has been appointed
a member of the welfare board of the
township of Salt Hill, and a clothing
depot will be opened shortly in the
village, where any one may send
clothes or wearing apparel of any
kind or food for distribution among
the unemployed. A movement is un-
der way for a concert and entertain-
ment in the second week in December,
the proceeds of which will be all used
in helping those in need in the town-
ship.

to be unlucky? This is the rea-
son given by Sir Charles Iggleaden in
those Superstitions."

"The dread of passing under a lad-
der has been looked upon by many in
derelict sense—the avoidance of a
fall falling from the hands of any
painter, the bricklayer, or the
carpenter, with the hod when ascending the
ladder—but the superstition arises
from the fact that when the ladder
falls against the wall it forms a tri-
angle, and is thus symbolical of the
angel. The ordinary layman of
Trinity says would, therefore, consider
it a bad omen to pass under a ladder
which has been thus placed."

THE SUPERSTITIOUS THIEF.

A Scotland Yard detective once
gave Sir Charles an extraordinary ex-
ample of the ladder superstition. A
thief who was being chased
suddenly found that he had passed
under a ladder. Although the police
were close upon him he turned quick-
ly, came back under the ladder, and
then rushed into the road to pass it.
This delay was fatal. He was caught
and his remark, laconically uttered,
was: "Well, it's better to be copped
than have bad luck all my life."

Possibly he did not know that all
would have been well if he had crossed
his fingers after passing under the
ladder—some people say you should
keep them crossed until you see a dog!
This same detective told Sir Charles
that most criminals are superstitious,
and that few well-considered crimes,
such as burglaries, take place on a
Friday.

SIR MALCOLM THE FATALIST.

Sir Charles once asked Sir Malcolm
Campbell whether he was superstitious.
Sir Malcolm said that he wasn't,
but added that Mr. and Mrs. Ray, MacCol-
lum, Smithville.

WINONA

The program of St. John's church
which has been launched for the
beautification of the property, is mak-
ing good progress. The old shed,
which had outlived its usefulness, has
been demolished and the lumber used
for the erection of a new building.
About 15 men of the congregation
have voluntarily given their services
for the past week. It is further plan-
ned to remove the larger shrubs at
the corner of Station road, which have
been blocking the view east on the
highway since they have grown so
large. They will be used to beautify
other parts of the church grounds.

Robert Tyrrell is nursing several
sore ribs as the result of a nasty fall
he received at W. D. Fletcher's fire on
Wednesday when he broke through
the floor where the fire had weak-
ened it. Several others also broke
through, one going through to the
cellar.

The Women's Missionary society of
Fruitland and Fifty United churches
held its annual meeting and election
of officers on Thursday afternoon in
Fifty Sunday school room. Rev. J. W.
Hunt presided over the election of of-
ficers, which resulted as follows:

Honorary president, Mrs. W. B.
Bridgman; president, Miss C. J.
Bridgman; first vice-president, Mrs.
Henderson; second vice-president,
Mrs. Martin; third vice-president,
Mrs. Callick; treasurer, Mrs. J. B. Pettit;
recording secretary, Mrs. Dunkin;
corresponding secretary, Mrs. Welsh;
supply secretary, Mrs. Toms; temper-
ance secretary, Mrs. Collington;
strangers' secretary, Mrs. Alaisie;
associate helpers' secretary, Mrs.
Peake; Christian stewardship secre-
tary, Mrs. W. Johnston; Missionary
Monthly secretary, Mrs. Barnard;
pianist, Mrs. H. Campbell; mission
had superintendent, Mrs. Aubrey
Smith; assistant, superintendent, Miss
Elsie Dunkin.

After the election of officers there
was a short but interesting program.
A group of laymen from St. John's
church attended the annual banquet
of the Wentworth Deanery Laymen's
association on Tuesday evening in
the parish hall at Stony Creek.

Rev. Canon R. A. Armstrong, of the
Church of the Redeemer, Toronto.
William McLean left Friday night
for Fort Wayne, Indiana, where he
will visit his daughter, Mrs. (Rev.)
S. A. Wiltmer, and family for the next
two months.

On December 9, at 3 o'clock, the
Ladies' Aid of Fruitland United
church will hold a tea, when Miss
Jean-Frances Henderson, alderman of
Hamilton, will be the speaker.
Only quick work by neighbours
saved the residence of W. D.
Fletcher, on Lewis side road, from be-
ing burned last week. Mr. and Mrs.
Fletcher arrived home from Hamilton
about 2 o'clock, a few minutes after
midnight, seeing smoke coming out
of the house, had quicken in to get at
the fire. More help was quickly sum-
moned, and although the fire had
gained considerable headway between
the partitions and floors, it was finally
brought under control, lots of water
being available. The furniture, walls and
tiles.

was considerably damaged by fire and
smoke, had been carried out to safety
and the interior of the house suffered
heavily from smoke and water, as well
as from the fire. It is understood the
loss is fairly well covered by insur-
ance. The fire was of unknown
origin.

BINBROOK

After a lingering illness, Thomas H.
Patterson passed away at his home in
Binbrook on Monday morning. Mr.
Patterson had lived for nearly 50
years in Blackheath and for many
years was connected with the opening
of the gas fields there. He was a
member of Blackheath United church.
He moved to Binbrook village about
eight years ago. Surviving are his
widow, formerly Miss Laverie Martin,
of sons, A. M. Patterson, of Toronto,
and S. W. Patterson, of Blackheath,
and one daughter, Mrs. H. P. Shep-
ard, of Denver, Colorado. Also one
other, R. F. Patterson, of Hamilton,
and one granddaughter, Miss Marie
Patterson, of Ryckman's Corners. The
funeral was held on Wednesday af-
ternoon from his late residence to
Blackheath cemetery for interment,
followed by service in the Blackheath
United Church.

BEAMSVILLE

I think trustee Tallman, who has given
because of introducing music into the
school, was backed up in his efforts
by the board members, and a motion
was introduced by trustee Fleming
to be seconded by trustee Tallman,
each of his passed, engaging P. Tins as
an instructor at the public
school, duties to begin January 1.

Alleged to have stolen 24 chickens
from Wallace Goldring, of Clinton
Township, Charles Thompson, Elmer
Kimball and William Olmstead, of
Brantford, were remanded in the po-
lice magistrate's court Friday on the
request of Crown Attorney Lancaster.

Miss Helen Comfort and Ralph
Comfort were home from Toronto uni-
versity for the week-end.
The annual chicken dinner and
entertainment under the auspices of
the Ladies' Aid of Wesley church
takes place on Thursday evening. A
program by the choir, under the lead-
ership of Miss Gertrude Stares, of Ham-
ilton, will be given.

Word has been received from the
department of game and fisheries,
granting the Lincoln County Game
and Fish Protective association the
right to establish a crown game pre-
serve in the township of Clinton. It
will be known as the Beamsville
crown game preserve.

Mrs. S. J. Wilson opened her home
on Tuesday afternoon for the month-
ly meeting of St. Alban's church W.
A.

The local troop of Boy Scouts is
opening a toy shop for the purpose of
repairing old toys for needy children.
If those who have broken toys will get
in touch with either Gerald Woodland
or James Carlton they will be called
for by the boys.

The funeral of Aaron M. Hons-
berger, of Louth township, was held
last Wednesday from the family home
near Jordan station. Deceased was
in his 67th year.

Surviving are three sons and three
daughters. Burial took place at Oak
Lawn cemetery.
On Wednesday afternoon the re-
mains of Israel Housser, a native of
Clinton township, and a resident of the
municipality for over sixty years,
were laid to rest in Mt. Osborne
cemetery.

Roy Honsberger of Vineland, has
been elected president of the Niagara
District Grotto club.

Mrs. Charles Tallman was given a
surprise on the occasion of her birth-
day last week, by a number of friends in kid-
dies' costumes.

Five firsts, two seconds and six
thirds were won on birds shown at
the Winter fair by Albert Edwards
and Huntman Bros.

A small trailer received more at-
tention last week in the space of half
an hour than he will probably get
again in a lifetime. Doggle was jay
walking on King street when a car
struck him and whirled him to the
side of the roadway. He was more
wounded than injured, but his yelps of
indignation and surprise could be
heard for blocks. "Poor doggle, nice
doggie," and many other pathetic in-
jections from a continually widening
circle soothed the injured one's
feelings until his owner arrived and
carried him away under his arm,
doggie's stub of a tail wagging its
gratitude and farewell to the crowd
as he disappeared down the street.
There was hardly a dry eye in the
crowd.

Sunshine Square, the young people's
club of Rock Chapel church, held its
meeting on Wednesday evening last,
with the vice-president, Leonard Shu-
ker in the chair. Albert Walters took
the topic, "The Parable of the Wheat
and Tares."

VINEMOUNT

The regular meeting of the Women's
Institute will be held in the hall on
Thursday, December 15, when the
District Officers will visit the branch.
An address, contest and sale will be
held also.

The Mystery of the Third Gable, the
three-act mystery drama, which will
be presented under the auspices of
the Women's Institute in the Com-
munity hall on Monday, December 12,
should provide plenty of thrills. Special
lighting and sound effects have
been arranged. Those who are taking
part in the play include Mrs. Philip
Shuker, Misses Mary Jefferies, Carrie
Jeffery, Annie Johnston; Howard
Martin, Ernest Tweedle, Philip Shu-
ker, Harold Shuker and Leonard
Shuker. The Hoskins' Corner Slickers
will furnish music and other good
vocal and instrumental selections will
be given.
Rev. Mr. Johnston, of Tapleystown,
was the speaker at the Home and
School club at the school on Tuesday
evening. He spoke on Christmas Cus-
toms in Other Lands. The roll call
was answered by what you would like
for Christmas.
Remember — Florence Nightingale
proved that constant activity inspired
by love, was its own protection.

"Wait a minute...
Dad's here too."

Young Joe Wilson got his first
away-from-home job a couple of
months ago. Though a stranger to
Brantford, he has yet to feel
his first twinge of homesickness.
Each Friday night at 8:30 he puts
through a Long Distance call and
chats with Mother and Dad... a
treat looked forward to by all
three with the reversed charge
paid for by Dad with a chuckle.
"It's a small price to pay for the
pleasure it gives," he says.
Long Distance is easy to use and
is always quick and dependable.
